

1 The Logo

An electronic version of the CASS logo may be requested from The CASS Scheme Ltd . Please contact via www.cass.uk.net or email to enquiries@cass.uk.net

2 Certification Bodies

A certification body may use the CASS logo on a functional safety certificate only where the assessment and certification complied with relevant CASS methodologies, and the certification body complies with the CASS Requirements for Certification Bodies.

A certification body may incorporate the CASS logo in the certification mark that it permits CASS certificate holders to use. The certification body shall exercise proper control over ownership, use and display of its certification mark and the CASS logo.

A certification body shall take suitable action to deal with incorrect references to the certification system or misleading use of certificates and logos by holders of CASS certificates. (Note: Such action could include corrective action, withdrawal of certificate, publication of the transgression and, if necessary, other legal action.)

A certification body shall not use the CASS logo or reference to CASS certification in publicity material and documentation in such a way that it could be misleading.

3 Organisations holding CASS certificates

Organisations that hold a CASS certificate may make reference to the scheme and the certification and use the logo in compliance with the rules laid down by the certification body that issued the certificate.

An organisation holding CASS certification for the Management of Functional Safety (a CASS 'FSCA' certificate) shall not use the certification mark on a product, or in a way that may be interpreted as denoting product conformity.

4 Use by other Persons or Organizations

Except as permitted in clauses 2 and 3, the CASS logo shall not be used by any person or organization in connection with any commercial activity. This is to avoid the logo being used in any way that may be misleading, or interpreted to denote conformity of a product, organization or process.

The logo may be used in connection with suitable non-commercial activities which promote the Scheme, subject to the prior, written approval of a Director of The CASS Scheme Limited. Examples of such activities are presentations or papers in favour of the open assessment of safety systems.
